Childcare and Education
Boost Learning

Boost

What's included?

Planning and Teaching

- Teacher dashboard gives instant access to course plans, course content, and progress reports. Share the whole course or individual tasks with the click of a button.

- 2 editable course planners – for Level 2 and Level 3 – plus customisable lesson folders, giving you the flexibility to use Boost Learning across any course you deliver.

- 100+ front-of-class presentations, teacher notes, and over 200 worksheets – plus handouts and scenario-based tasks for engaging and interactive learning

- Easily view and export progress reports for individual learners and entire groups – giving you clear insights at every level.

Assessment and Learning

- Personalised student dashboard featuring 'To Do' and 'Done' folders, and a 'My Stats' section that keeps learners motivated and focused on their assignments

- Level 3 sample evidence tasks to help learners demonstrate the understanding and competence required for their portfolio of evidence

- 40+ videos including best practice and child development theorist summaries

- 100+ interactive quizzes to use on mobile or laptop

- 10 word mats for key words and definitions (one per unit)

- Interactive key word and definitions flashcard bank; range of tests and tasks to assess student understanding in college or independently

What next?

- Child Care and Education Boost Learning is available as an annual subscription @ £25 per user

You can save on multiple subscriptions:
- 10% discount for 20–29 learners
- 20% discount for 30–74 learners
