 **HODDER**  
EDUCATION  
AN HACHETTE UK COMPANY

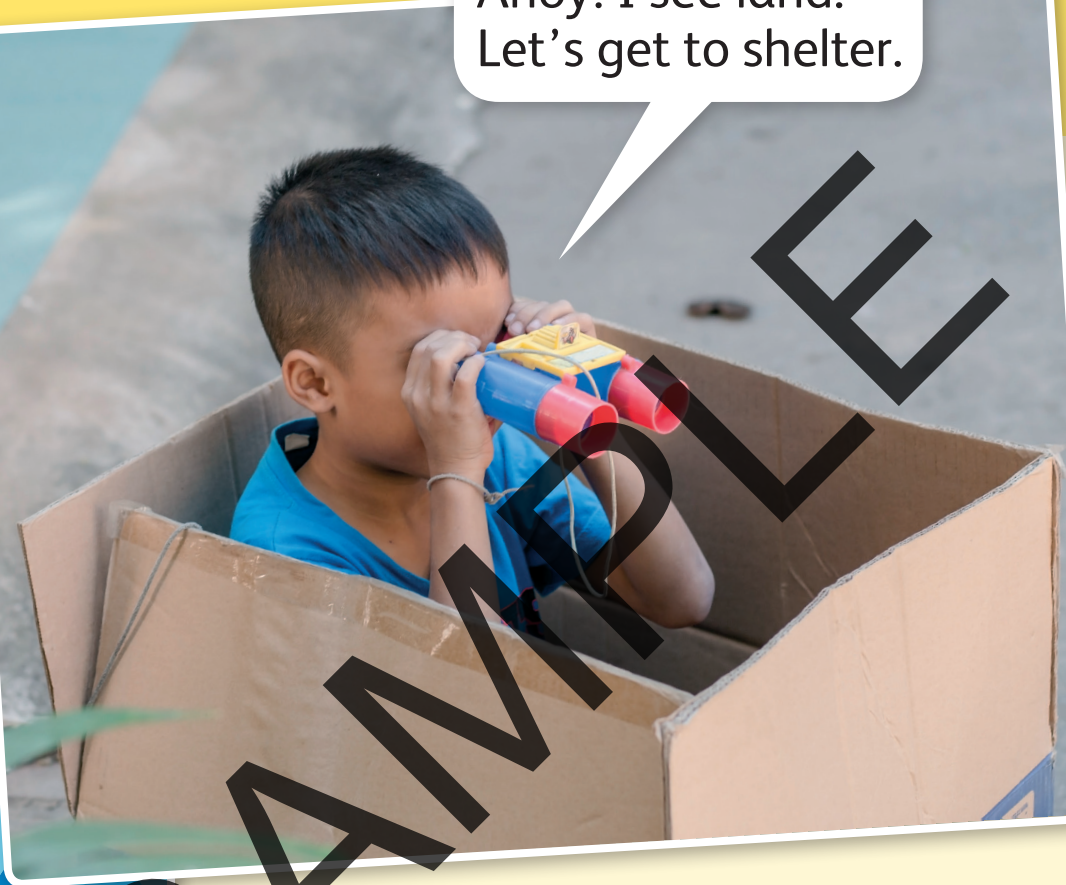

Let's pretend we are sailing away.  
There is a storm.  
There might be thunder and lightning.

Talk about the picture.

*Point to the boat. Point to the waves. Make the sound of thunder and lightning. What does it feel like to be in a stormy sea?*

Ahoy! I see land.  
Let's get to shelter.

Where will you sail?  
What will you sail in?

Talk about the photo.

*Say 'Land ahoy!' in a shouting voice. Say it in a soft voice.*

*Why is it good to see land in a stormy sea? What is shelter?*

Let's pretend we are in a rocket.  
There is a big bang and then a flash.  
It is lift-off!

Talk about the picture.

*What is lift-off? How does the rocket lift off? Make the noise of a rocket lifting off. How long do you think it takes to zoom to the moon?*

Hold on tight!  
I am zooming  
to the moon.

What is your rocket made from?  
How will it get back to Earth?

Talk about the photo.

*Point to the pretend space helmet. Why is the girl wearing a helmet?  
When else do you need to wear a helmet?*

Let's pretend we are camping up high.  
It is light and bright.  
There are big hills.

Talk about the picture.

*What is camping? Describe the hills.*

*Describe the tents. What do you need to go camping?*
